# Our power suppliers

Belchatow coal power station is located 30 km on north-west of Radomsko City. It produce the one of the chipest energy in Poland. Total power is 5200MW.

Kamiesk wind power station. Located 10 km north of Radomsko City. Total power is 30MW. Wind turbine are located on mountain created as result of coal mine activity.

# Energy from north and south

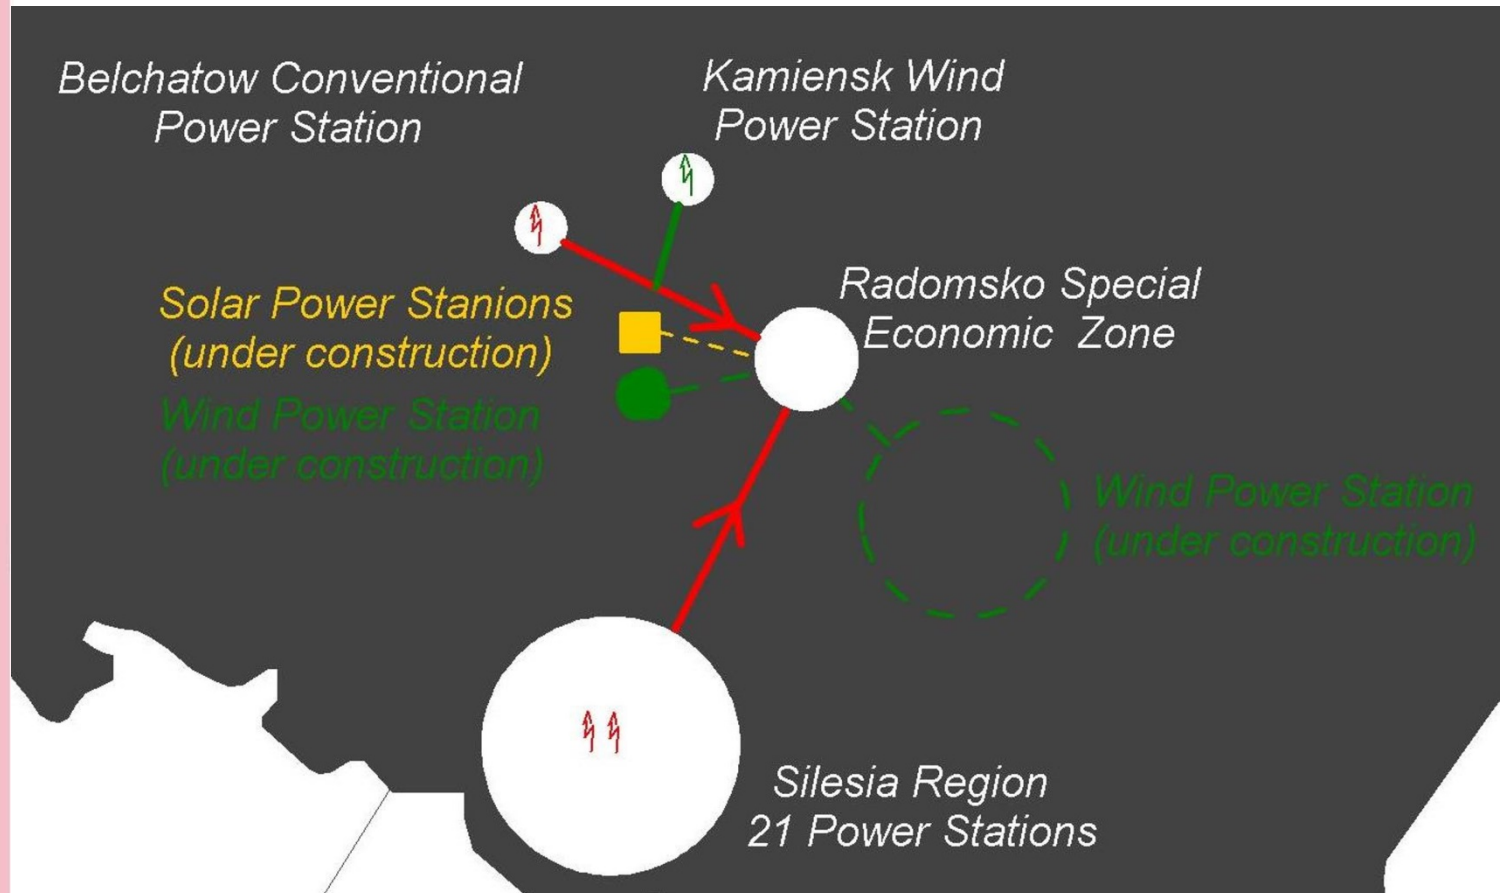

Radomsko is supplied from two sides - from Belchatow power station and Silesian Region.

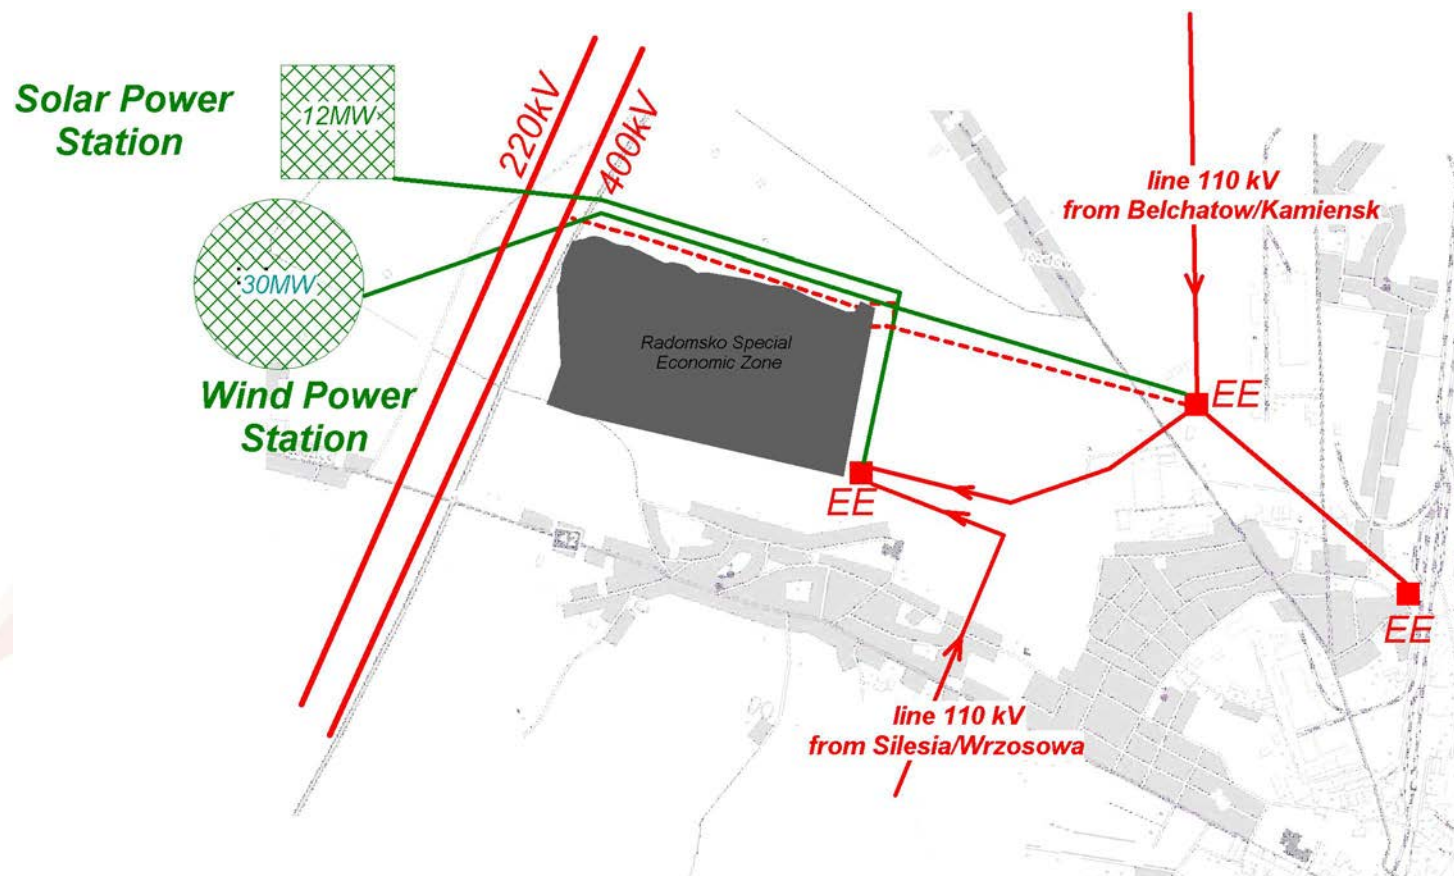

It gives Radomsko City reliability power supplies – electricity never stop !

# Energy from north and south - zoom on Radomsko

## Special economic zone – 2 side supplied

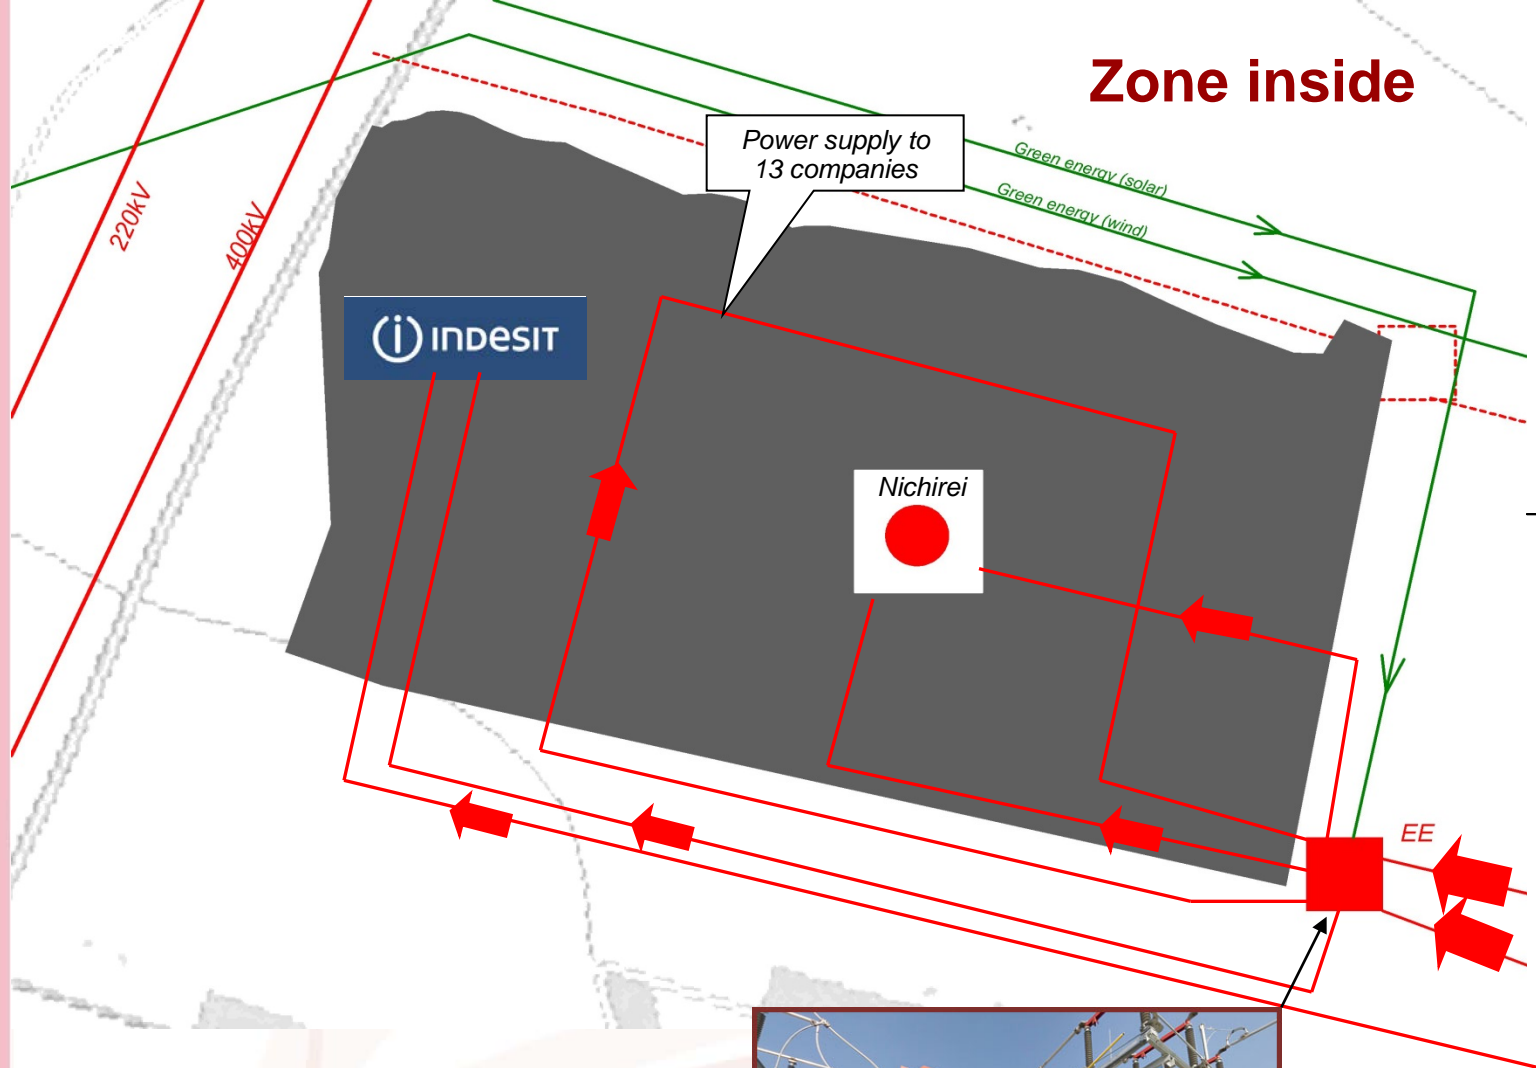

At present industry zone is supplied with electricity from north and south. Green colour means wind and solar power station under construction. The 2 power systems are projected/constructed 2-5km on West from industry zone.

The green energy gives us not only protection of the natural environment but safety of the power supply.

Radomsko special economic zone will be powered from 3 sides!

## Zone inside

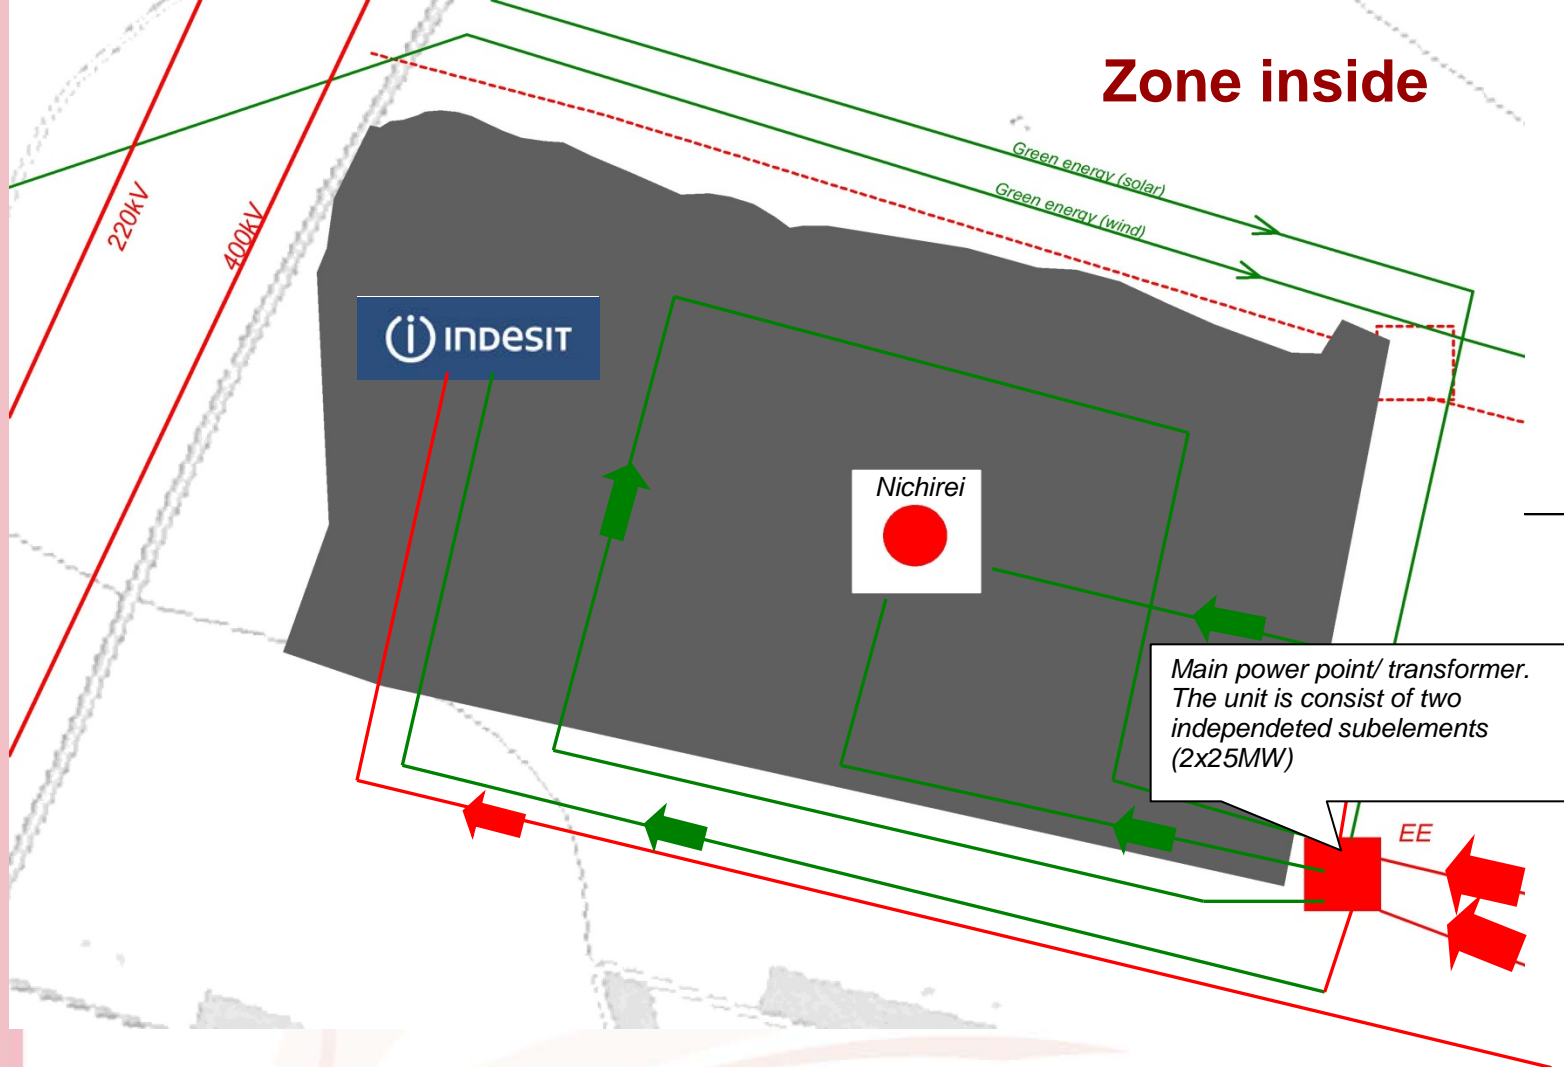

Each company in Radomsko industry zone is been powered from 2 sides.

There was no energy breakdown since the time of creating the zone.

The power supply system is nearly 100% safety.

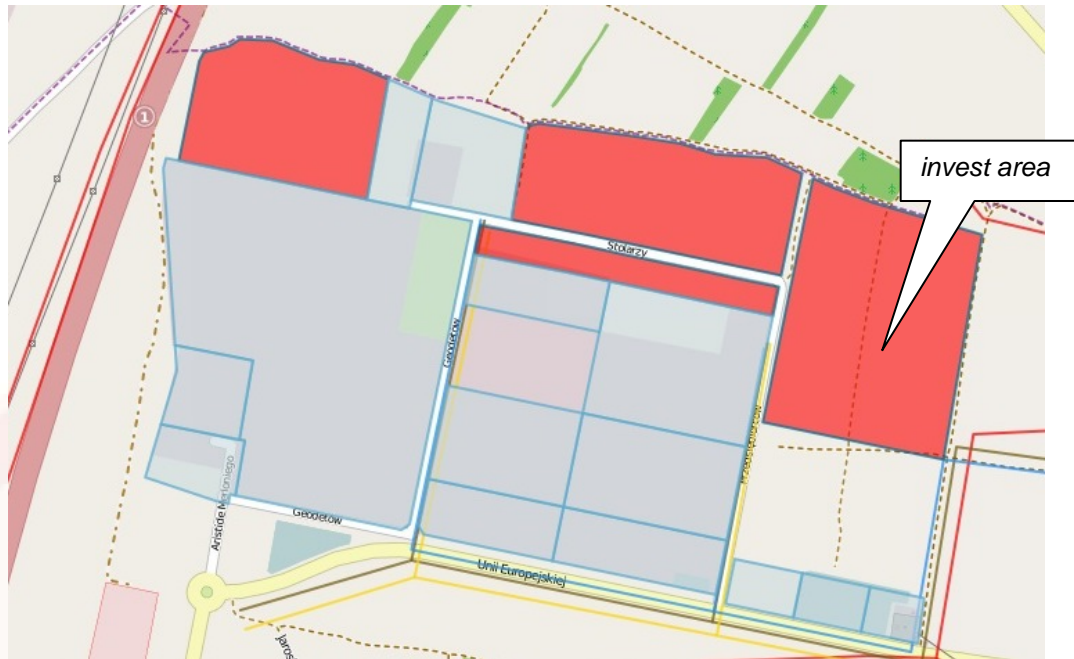

## Zone inside

In 2015-2017 wind and solar systems are expected be ready so Radomsko industry zone will became much more green than now.
